Profile Summary

Results-driven DevOps Engineer with over 2 years of experience designing, deploying, and managing scalable infrastructure on AWS and Linux environments. Proficient in optimizing cloud solutions, automating workflows, and ensuring high availability and security. Adept at collaborating with cross-functional teams to deliver robust, cost-effective systems. Passionate about leveraging cutting-edge cloud technologies to drive innovation and operational excellence.

Professional Skill

- AWS
 - Github
- Linux
 - Ansible
- Nginx
 - Git
- Docker
 - Jenkins
- Packer
 - CI/CD

Education

Bachelor of Technology in Computer Engineering

Silver Oak College of Engineering and Technology, Ahmedabad

2020 – 2024

Work Experience

Devops Engineer, Amrapali Online Venture Private Limited

Dec 2025 – Present

- Architected, deployed, and continuously optimized AWS infrastructure for four business platforms — DigiGold, PlusGold, Gujarat Gold Centre, and AgMetalX — ensuring scalability, high availability, and cost efficiency.
- Implemented SAML-based Single Sign-On (SSO) with role-based access control (RBAC) across multiple AWS accounts, enforcing least-privilege access and AWS security best practices.
- Set up and administered an in-house GitLab server, designing and maintaining CI/CD pipelines to automate build, test, and deployment workflows across environments.
- Implemented monitoring and alerting using Grafana and Prometheus, providing real-time visibility into infrastructure health and application performance.

Cloud Engineer, Electromech CloudTech Pvt Ltd

Jan 2024 – Dec 2025

- Gained hands-on experience in cloud infrastructure through an internship focused on AWS and Linux environments.
- Deployed and managed a three-tier architecture project for the "Online Public Loans" client, utilizing AWS-based solutions including VPC, Transit Gateway, EC2, Lambda, RDS, CloudWatch, CloudFormation, Route 53, and S3, while contributing to networking, computing, database, monitoring, ISC, DNS, and storage solutions.

- Transitioned back from client-side in September 2024, onboarding to AWS SSO to support multiple clients with a focus on AWS and Linux.
- Acquired expertise in ECS, AWS CICD Pipeline Services, WAF, and CloudFront, enhancing cloud deployment and security capabilities and AWS Migration Services
- Implemented disaster recovery solutions for various clients and deployed PHP, Node.js, and Next.js tech stacks on AWS. Also assisted one of our clients in achieving AWS Partner status.

Certifications

- **RHCSA**
- **AWS certified solutions architect**
- **AWS certified cloud practitioner**
